

Everyday Clinical Care for the LGBTQIA Family Course Information

Goal

Gain self-awareness about ways to respect a person's sexual orientation/gender identity/gender expression within the context of everyday clinical care.

Objectives

- State basic “do’s” and “don’ts” for gender-neutral language.
- Recognize the difference between gender equality and gender equity.
- Recognize the basic current meaning of at least 10 different terms that facilitate communication in the LGBTQIA community.
- Recognize how clinician behavior or the facility’s environment and policies may be perceived as disrespectful of or undermine the autonomy of the LGBTQIA client.
- Consider ethical aspects of a case report on a lesbian couple wanting induced lactation.
